

A Commitment to Responsible Luxury

The Chedi Luštica Bay stands as a sustainability leader within The Leading Hotels of the World collection and is the first luxury hotel in Europe on the road to Zero Waster. As the first hotel in Montenegro and one of the first 100 VERIFIED™ resorts globally for Responsible Hospitality by Forbes Travel Guide, we take immense pride in pioneering sustainable practices. These prestigious recognitions underscores our unwavering commitment to environmental protection, employee empowerment, and enriching the local community.

As a Green Key-certified property, we are dedicated to shaping a more sustainable future. Through our [Adriatic Green Hub](#) and Earth Check certified property, we cultivate a collaborative platform for knowledge-sharing, cross-sector dialogue, and meaningful partnerships.

Together, let's keep driving change—one green step at a time. Learn more on our [sustainability page](#).

Authentic Sustainability Experiences

HIKING & HERB HARVESTING

Join us on a guided herb-foraging hike and explore the breathtaking landscape of the Luštica Peninsula. Led by a knowledgeable local guide, this journey will take you along scenic trails as you discover the region's rich biodiversity.

As part of this experience, you'll have the opportunity to donate the herbs you collect to support local sustainability initiatives. As a token of appreciation, you will receive a thoughtfully curated, locally sourced gift to take home.

Reconnect with nature, expand your knowledge, and make a positive impact—one step at a time.

Price: €120 per room

Duration: Approximately 3 hours

Reservations are required at least one day in advance. This experience is subject to availability and seasonality. All prices are quoted in euros, inclusive of VAT and subject to a 10% service charge.

STAY, ENJOY, AND GIVE BACK TO NATURE

As part of our unwavering commitment to sustainability and climate action, The Chedi Luštica Bay is proud to partner with Trees4Travel. This collaboration empowers our guests to take an active role in combating climate change by offsetting their travel carbon footprint through tree planting.

During their stay, guests can contribute to this initiative by offsetting their travel emissions. Our green team can assist in calculating the CO2 emissions based on the guest's journey and determine the required contribution. Each tree planted helps counterbalance carbon emissions, supports global reforestation, and restores ecosystems in developing countries.

Carbon offsetting starts from just €4 per tree, providing an easy and impactful way to contribute to a healthier planet. Join us in making a difference—one journey at a time.

LIVING LIBRARY: CONVERSATIONS THAT INSPIRE CHANGE

Sustainability is a journey—one shaped by knowledge, creativity, and meaningful action. With our Living Library experience, we invite you to book a one-on-one meeting with a member of our Green Team, where you can ask any questions about our sustainability initiatives, innovative projects, volunteer work, and the steps we take to create a more responsible and regenerative destination.

This is your opportunity to engage in open conversation, gain insights, and exchange ideas with the people who are driving change behind the scenes.

Let's learn from each other and shape a more sustainable future.

Price: €300 (for 1 to 5 persons)
Duration: up to 1 hour 30 min

Reservations are required at least one day in advance. This experience is subject to availability and seasonality. All prices are quoted in euros, inclusive of VAT and subject to a 10% service charge.
